Privacy is necessary for an open society in the electronic age. Privacy is not secrecy.

A private matter is something one doesn't want the whole forld to know, but a secret matter is something one doesn't want anybody to know. Privacy is the power to selectively reveal oneself to the world.

A Cypherpunk's Manifesto by Eric Hughes, 1993

December 6th, 2012 6:30 pm Fakultät Informatik (E07) Nöthnitzer Str. 46, Dresden

What? Discussion and workshops about cryptography, installation and trying out:

> anonymous web browsing using TOR

> mail encryption with PGP and co.

> secure communication and many more

Bring something?

0. curiosity and interest

1. laptop and alike (if available)

Who?

C3D2 [https://www.c3d2.de/]
FSR Informatik [https://www.ifsr.de/]
You!

For whom? Everyone with interest in cryptography, secure and anonymous communication. No matter if you are already an expert or a beginner, come by and join
